China-In-Europe Research Network (CHERN) Publication Workshop
Sponsored by VICES and EU COST Association
7 November 2019, Brussels 10.00-18.30 hours

THE WIND FROM THE EAST
China’s Global Externalisation and European Development

Chairs
Jeffrey Henderson is Professor Emeritus of International Development at the University of Bristol and Vice Chair of the EU-COST China in Europe Research Network:
Jeffrey.Henderson@bristol.ac.uk

Nana de Graaff is Associate Professor of Political Science at the Vrije Universiteit Amsterdam and Chair of the EU-COST China in Europe Research Network:
n.a.de.graaff@vu.nl

In recent years Europe has become a primary focus for the global externalisation of China’s political economy and society. With cumulative Chinese investment in Europe exceeding €300 billion, the rolling out of Chinese government plans such as its Belt and Road Initiative and Made in China 2025 and the fact that many Chinese companies are state-owned, major consequences for Europe’s economic, social, political and geopolitical development are now in train.

This first international publication workshop from CHERN will bring together a selection of papers from a wide array of social scientific disciplines ranging from political science to anthropology from leading and upcoming scholars in Europe and beyond (e.g. Hong Kong, China) focusing on the socio-economic engagements and interactions of Chinese investments in Europe. The workshop is aimed at a special issue in a leading social sciences journal.

The workshop will be hosted by: EU COST Association, Avenue Louise 149, Brussels.
